## TESTIMONIALS

### FROM A PARENT

"I'm writing to express my gratitude for the exceptional experience my son had during your summer course. Through our conversations with him, it was clear how much he enjoyed the program and how meaningful it was for his personal growth. Beyond the academic content, Gustavo returned home enriched in many aspects: emotionally, intellectually, and with a broader perspective of the world. Even though he had previously travelled to other countries, this course provided him with a unique experience - being abroad on his own, interacting with students from diverse cultures, and gaining independence in a structured and nurturing environment.

We are truly impressed by the organisation and the thoughtful structure of the course. Congratulations on such a well-conceived and impactful project, which has contributed greatly to Gustavo's development and will be sure to continue to shape him positively in the future.

Please extend our appreciation to everyone involved: the administration, teachers, monitors, and all staff. The professionalism, care, and attention you dedicate to the students are truly admirable and made all the difference in Gustavo's journey."

### OUR STUDENTS' PERSPECTIVE:

"I had really amazing experience. I learned a lot and made new friends from other countries and different cultures. The teachers were too kind, the school is very nice, and the food was great! We went to different places around London and I really enjoyed it."

**Mohamed, China/Yemen**

"As soon as I arrived in the hall, I knew the course would be an outstanding experience. This was the fourth time I've taken a summer programme, and The London School of English provided by far the best I've experienced. The course is well organised in each and every aspect, and it teaches stuff not only to improve your English, but also for your business life."

**Guilherme, Brazil**

"I can summarise it as a perfect mix of lessons and activities. I think we did almost everything that we could do in London, activity-wise! Initially I wanted to come here with my friends and I was sad that I didn't come with them on the first day, but then I realised that I don't need friends from my own nationality to have fun here. Everyone is so nice. It doesn't matter what nationality they are, you just get along well."

**Selin, Turkey**
