

English and Culture Programme for 50+

Our 50+ English and Culture Programme combines morning General English lessons with an afternoon cultural programme built around London's world-class museums, galleries, and neighbourhoods.

You'll study alongside students of all ages and nationalities in the morning - the best way to practise real, everyday English - then spend your afternoons exploring the city with your fellow 50+ classmates and your trainer who will guide you and help you to understand culture and history of London.

It's two weeks of structured learning, genuine cultural immersion, and good company. Available as a one-week option too.
